Industrial Pillar

SolidWorld is the leading Italian 3D digital systems integrator for manufacturers, supporting and accelerating their journey to Industry 5.0. The rapid **progress of manufacturing technology is creating a significant opportunity** for the industrial pillar.

Partner Products

3D Printing

3D Printing

3D Scanning

Proprietary IP

Shift to Software-as-a-Service Model

	Yr 1	Yr 2	Yr 3	Yr 4
License/Maint	100	12	12	12
Cumulative	100	112	124	136
Subscription	50	50	50	50
Cumulative	50	100	150	200

Moving customers gradually from license/maintenance to subscription boosts recurring revenue

Proprietary software registered within SIAE (as of 30 June 2024)

9

Industrial Pillar – Clients and collaborations

Extensive customer base with more than 10.000 clients and consolidated relationships with the top Italian Universities. Client diversification is extremely high (low concentration with top 10 clients reaching less than 10% of revenues).

Clients

Collaborations with Top Universities

Solar Pillar

SolidFactory turnkey capabilities for high-efficiency Photo-Voltaic panel assembly lines are recognised as providing leading solutions by leading global manufacturers.

Production Lines

Machines

Turnkey Factories

SolidFactory

Solar Pillar

Market Growth Drivers

- EU's NZIA – Net Zero Industry Act**

Increasing zero-emission technology productivity to support clean energy transition

- Italy's NRRP – National Recovery and Resilience Plan**

EUR 2.2 bn incentives for PV projects built with EU-made solar modules

- Italy's Piano Transizione 5.0**

The Company expects a significant increase thanks to the entry into force of the Industry 5.0 Implementation Decree, that aims to support investments made by companies to increase the energy efficiency of their plants

- “The future of European competitiveness” (M. Draghi, Sept. 2024)**

The European Union needs EUR 800 billion per year (for 5 years) of investments in the sectors of **Innovation**, **Decarbonization** and **Security**, to fill the productivity gap with the USA: Europe will have to invest in Research&Development to create new technologies and innovative solutions.

The **Energy Transition** is also necessary to increase Europe's security and independence

Company's Strategy

Combine SolidWorld commercial and industrial know-how with Formula E's – second largest shareholder of SolidFactory – technical excellence to capture opportunities from growth in **IBC (Inter-digitated back contact) panel manufacturing**

Exploit all opportunities presented by **European plans to re-shore the panel manufacturing industry**

Biomedical Pillar – Electrospider’s History in Brief

Sept. 2022

BIO3DModel **acquires the Electrospider** patent from the University of Pisa.

Feb. 2023

Bio3DPrinting **starts mass production** of Electrospider at the company plant in Barberino Tavarnelle, just outside Florence.

Apr. 2023

SolidWorld Group announces the **delivery in September** of the first Electrospider model to one of the largest Italian hospital and medical research centres located in Northern Italy.

Nov. 2023

Bio3DPrinting signs an important supply contract for the Electrospider platform with one of the largest hospitals in **New York County (USA)**.

Jan. 2024

Bio3DPrinting signs an important supply contract for the Electrospider platform with a prestigious hospital institute in **Lausanne, Switzerland**, collaborating with the one in New York which had already issued a major order for the purchase of Electrospider in 2023.

Mar. 2024

SolidWorld Group and Humanitas University join forces to accelerate Italian medical research: Electrospider becomes one of the main technologies included in the new 3D Printing Laboratory at the Innovation Building, on the **Humanitas University campus**.

May 2024

- Debut at **Abu Dhabi Global Healthcare Week** with the presentation of Electrospider, already purchased by a local hospital.
- Patent filed for Electrospider first operational customized head.

June 2024

Implementation on Electrospider of the **algorithm for the creation of vascularization** of complex biological human tissues and organs, an algorithm for which the patent is being obtained.

Biomedical Pillar

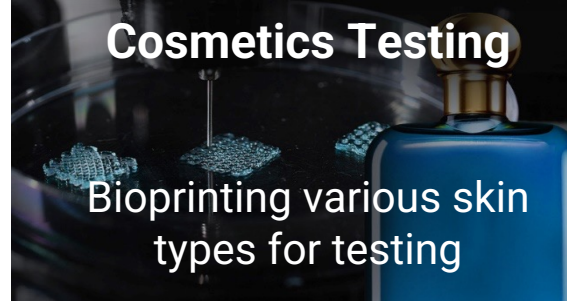

Up to now tissues printed by current 3D bioprinting offerings are limited in their applications by lack of structure. SolidWorld highly innovative Electrospider machine solves that problem: combines electrospinning and extrusion techniques to deliver superior organoids and tissue samples.

Company's Strategy

Animal Testing
Ethical concerns a driver for adoption

A photograph of a white mouse in a laboratory setting, used to illustrate the application of bioprinting in animal testing.

Cosmetics Testing
Bioprinting various skin types for testing

A photograph showing a bioprinting process with a blue bottle of perfume and a printed skin sample, illustrating its use in cosmetics testing.

Precision Oncology
Tumour printing for therapy formulation

A photograph of a surgeon's hands performing a procedure, illustrating the application of bioprinting in precision oncology.

Vaccine Development
Bioprinting will accelerate pandemic reaction time

A photograph of a person in a white lab coat holding a syringe, illustrating the application of bioprinting in vaccine development.

Organ Transplants

Our unique technology represents a major step toward the production of viable human organs for transplants

Capitalise on early international successes to monetise the **many ongoing conversations with research institutions and hospitals** interested in Electrospider

Build on **Electrospider technological lead** with Bio3Dprinting's significant R&D effort, prototyping & production

Agenda

The Group

1H 2024 Results

Future Outlook

Annex

SolidWorld GROUP – 2024 Key Facts

January

- Award of a new complete order for the patented **ELECTROSPIDER** platform by a prestigious hospital institution in Lausanne, Switzerland
- Award of a new international contract, through the subsidiary **SOLIDFACTORY**, relating to the engineering and complete supply of an innovative high-tech line in the solar and renewable energy sector

February

- Award of a new order, by the Group's **industrial pillar**, from a leading Italian company in agricultural machinery components, for a value of **EUR 850 thousand**

May

- **Electrospider** presented at the Abu Dhabi Global Healthcare Week. First order in the Emirates from a local hospital
- Supply of proprietary **AI LEATHERWORKS** software to a French luxury brand, for a value of **EUR 700 thousand**
- Patent filed for **ELECTROSPIDER**'s first operational customized head

June

- Implementation on **ELECTROSPIDER** of the algorithm for the creation of vascularization of complex biological human tissues and organs, an algorithm for which the patent is being obtained

July

- New order for two 3D design & printing systems for a major government entity in the United Arab Emirates, for a value of **EUR 800 thousand** devoted to the expansion of **SOLIDFACTORY**'s production spaces and the creation of a cellular analysis laboratory for the biomedical pillar

September

- New **acquisition of 22% of the shares of Miralis S.r.l.**, an innovative startup, and **closing of the acquisition of 100% of Due Pi Greco S.r.l.**, a company specialized in additive manufacturing

Million Euro

Net Debt and Funding Analysis

Million Euro

- Relatively stable NFP: investments in growth areas like the Electros spider and new market entries such as solar covered mainly with CF

Agenda

The Group

1H 2024 Results

Future Outlook

Annex

Future Outlook

- In 1H 2024, the Group transitioned from a national industrial additive manufacturing company to a **technological holding with three pillars**: Industrial, Biomedical, and Solar
- Focus on **internationalization** was evident through a significant order worth €800,000 from Abu Dhabi for two 3D design and printing systems
- The expected unblocking of the Industry 5.0 decree will significantly boost both the **Industrial and Solar sectors**
- The **Biomedical pillar** saw substantial investments, resulting in strong market positioning, leading to growth demonstrated by concrete orders and agreements

Significant increase mainly attributable to the item Other revenues which includes the revenues generated to support the R&D and mktg. activities of the Electros spider

Strong increase attributable to goodwill relating to acquisitions and to development and R&D projects of some Group companies

Increase mainly attributable to the proceeds generated to support business activities related to the production and marketing of Electros spider

SolidWorld GROUP – Consolidated Balance Sheet
